INDEX

ABBOTT, W., AND J. AWAPARA. Sulfur metabolism in the lugworm, Arenicola, 357.
Abstracts of papers presented at the Marine Biological Laboratory, 283.
Acartia, feeding and respiration of, 399.
Acclimation of guppy to cold, 231.
Acetazolamide, effects of on skeleton formation in corals, 416.
Acetylmyosin, action of trypsin on, 286.
Actin, studies on, 290, 294.
Actin depolymerization in presence of KI, 290.
ADAMS, R. G., AND W. A. HAGINS. The ionic composition of squid photoreceptors, 300.
ADAMS, R. G. *See* W. A. HAGINS, 316, 317.
Age in relation to cold death in guppy, 231.
Age in relation to osmotic regulation of Penaeus, 560.
Age in relation to respiration of Rana embryos, 428.
D'AGOSTINO, A. S., AND A. FARMANFARMAIAN. Transport of nutrients in the holothurian Leptosynapta, 301.
ALDRICH, D. V., AND W. B. WILSON. The effect of salinity on growth of Gymnodinium, 57.
ALEXANDER, D. G. Directional movements of the intertidal snail, Littorina, 301.
Alga, cold-hardiness of, 474.
Alga, pseudocilia of, 319.
Algae, plankton, iron requirements of, 324.
ALLISON, W. S., AND E. E. CLARK. Observations on the ribosomes of sea urchins, 302.
Alloxan, permeability of red blood cells to, 311.
Amino acids in Calliobothrium, 120.
Amino acids in flatworms, 75.
Amino compounds in Arenicola, 357.
Ammonia in Golfingia and ambient air, 344.
Amoebocytes of oysters, 273.
Amphibian, oocytes of, 224.
Amphibian development, respiratory regulation in, 428.
Amphipods, feeding and respiration of, 399.
Anatomy of bryozoa, 479.
Anatomy of Chiridotea, 153.
Anatomy of digestive system of Henricia, 371.
Anatomy of Himasthla, 529.
Anatomy of Lineus gut, 189.
Anatomy of Mitella, 169.
Anatomy of moth spiracles, 494.
Anchoviella, swimming sounds and schooling of, 210.
ANDERSON, J. M. Histological studies on the digestive system of a starfish, Henricia, with notes on Tiedemann's pouches in starfishes, 371.
ANDERSON, J. M. Regeneration of the cardiac stomach in Asterias, 302.
Annelid, gametogenesis in, 145.
Annelid, sulfur metabolism of, 357.
Annelids as food for Lineus, 189.
Annual Report of the Marine Biological Laboratory, 1.
Antarctic bryozoa, 479.
Antherea, discontinuous respiration of, 494.
Antigens of Arbacia sperm extract, 202.
Antimitotic action of heavy water, 298.
Aqueous humor formation in dogfish, 340.
Arbacia eggs, cleavage in, with nucleus intact, 87.
Arbacia eggs, surface changes in, 260.
Arbacia sperm extract, antigens of, 202.
Arcella, monauxenic culture of, 310.
AREND, W. P. *See* S. ZIGMAN, 351.
Arenicola, sulfur metabolism in, 357.
ARMSTRONG, P. B. The pupillary mechanism in the toad, 291.
Artemia, size in relation to metabolism of, 399.
Asterias, digestive system of, 371.
Asterina, digestive system of, 371.
Astropecten, digestive system of, 371.
Autoradiography of Arenicola extracts, 357.
AWAPARA, J. *See* W. ABBOTT, 357.

BACTERIA, injected, removal of from oyster, 273.
BALTUS, E. *See* W. S. VINCENT, 299.
Barnacle, reproduction in, 169.
BARNWELL, F. H. A day-to-day relationship between oxidative metabolism and world-wide geomagnetic activity, 303.
BARNWELL, F. H. *See* F. A. BROWN, JR., 306.
Bathycalanus, feeding and respiration of, 399.
BEAMS, H. W. *See* R. G. KESSEL, 322.
Behavior of schooling fishes, 210.
BELTON, P. Effects of ions on potential in lepidopteran muscle fibers, 289.
BENNETT, M. F. *See* F. A. BROWN, JR., 65.
BENNETT, M. V. L. Comparative electrophysiology of supramedullary neurons, 303.
